experience

TAD

Design Agent
July 2019 - Present

Responsible for project design and deliverables from concept development to construction oversight and completion. Projects range from floor plan creation and architectural oversight to sound design and custom product solutions, which requires succesful communication and collaboration with systems engineers, architects, visual designers, and project administrators. Client projects include custom sound design for NBA headquarters, Design Research and Evalutation systems for Pfizer, and a custom educational product for Mastercard.

NASA - Habitability Design Center
Design Intern
2018 (Summer)

Redesigned interfaces for VR programs used for astronaut training. Worked as primary project design lead, researcher and manager. Collaborated with other designers, as well as engineers, programmers, and subject matter experts to design & deploy project across multiple departments. Developed graphic standard manual for continued and evolving implementation.

VIDA Shoes International
Design Intern
2017 (Summer)

Content creation for in-house brands and contracted clients (OshKosh b'Gosh, Carter's, Stride Rite, Amazon, Zappos.com.) Facilitated launch of new packaging line, including design, prototyping, and acting as liason with manufacturers and clients. Oversaw scheduling of general day-to-day along with organizing global ad campaigns, photoshoots, and trade shows.

Claudio Cambon Photography
Studio Apprentice/Assistant
2014 (Spring)

Responsible for film delivery and development, site scouting and research, and photo editing. Coordinated gallery openings, exhibition, and installations. Assisted with graphic design and logistics for photo book.
